

The logo for CP Industries is located on the left side of the page. It consists of a vertical bar with a dark red background and a light olive green background. The text "CP INDUSTRIES" is written vertically in a light olive green, sans-serif font.

# BETTER GLUING FOR CORRECTIONS INDUSTRY MANUFACTURING

## BETTER GLUING SOLUTIONS OFFER:

- Increased Safety
- Increased Security
- Long term durability
- Easy and Scalable implementation
- Environmental Sensitivity
- Single Comprehensive Source

Adhesives are a vital part of any furniture operation. Within the corrections industry they present special problems ranging from security and safety to compliance with state and federal regulations. Our knowledgeable security staff coupled with our years of experience in the wood products market gives us a unique perspective from which to serve the corrections industry.

Some of the issues we address:

### **Security**

Innovative formulations and modifications designed with security in mind

### **Technology**

Changing materials and products require up to date knowledge of the latest technology. We constantly develop new products and procedures.

### **Inhalation abuse**

An awareness of potential abuse is important. We provide support in this area.

### **Environmental**

Today's focus on the environment requires that all manufacturers be aware of the impact of products they use. We remain constantly up to date on environmental issues.

### **Flammability**

Obviously flammable materials should be avoided in a prison setting. We offer safe alternatives to traditionally flammable adhesives.

### **Health and Safety**

Many chemicals used in furniture production pose a health and safety risk. We provide consultation on protection methods and offer safer alternatives wherever possible.

### **Current Regulations**

Federal, State and Local workplace regulations are rapidly changing. We provide education and support in this area.

*CP INDUSTRIES*  
**Better Gluing**

## **Ease of use and Durability**

Adhesives are formulated for a variety of characteristics relating to both the use and durability requirements of an operation. We work with you to select the adhesive to match your requirements from our comprehensive line of adhesives and equipment.

## **Current Regulations**

Federal, State and Local workplace regulations are rapidly changing. We provide education and support in this area.
